4	Configuring	7
5	Running	9
6	Indices and tables	11

CHAPTER 1

Readme

Docs

A [Twitch.tv](#) chat bot written in Python3 that uses [MongoDB](#) to store data.

CHAPTER 2

Requirements

- Python \geq 3.6
- A MongoDB instance
- Requests
- IRC
- PyMongo

CHAPTER 3

Installation

Installing MongoDB

Installation

Installing the bot

```
git clone https://github.com/FaithBeam/chat-samples.git
cd chat-samples
virtualenv venv
source venv/bin/activate
pip install irc requests pymongo
```

CHAPTER 4

Configuring

Refer to *config/readme.md* for configuration. `Credentials.ini` is the only necessary edits unless you installed your mongodb instance on another machine.

CHAPTER 5

Running

```
python twitchbot.py
```

CHAPTER 6

Indices and tables

- `genindex`
- `modindex`
- `search`
